

mfx1330 SERIES

Type: Digital copier, flatbed colour scanner, high speed fax and 600dpi printer

Phone line: Public Switched Telephone Network (PSTN) or equivalent

Modem: 33,600bps with automatic fallback in 2,400bps reductions to 2,400bps

Compatibility: Super Group 3

Transmission speed: 2 seconds per A4 page*

Resolution (horizontal x vertical):
Superfine 406dpi x 392dpi or 600dpi x 600dpi.
Fine 203dpi x 196dpi. Normal 203dpi x 98dpi.

Minimum original document:
120mm(W) x 100mm(H)

Maximum original document:
216mm(W) x 900mm(H)

Paper weight: 35-128gm²

LCD: 2 lines, 20 characters per line

Dimensions: 520mm(W) x 450mm(D) x 446mm(H)

Power: 230 volts AC ± 10%, 50/60Hz

Sleep power consumption: 11w

Standby power consumption: 41wh

Maximum power consumption (copy mode): 920w

Weight: 21.1kg

Digital Copier Features:

Scanning Method	Mono and colour CCD
Printing Method	LED
Copy Speed	13 cpm
Duplex Copy	Yes, on mfx1330d
Greyscale	256 levels
First Copy Out Time	12 seconds
Warm Up Time	23 seconds
Paper Cassette	500 sheets (upgradeable to 1,000)
ADF Capacity	80 sheets
Bypass Capacity	50 sheets
Document Sorting	Digital
Reduction/Enlargement	25-400%
Copy Quantity	1-99
Digital Copy Counter	As standard
Departmental Codes	Yes
Output Tray	250 sheets

Printer Features:

Print Resolution	300x300dpi or 600x600dpi
Print Speed	13 ppm
Duplex Print	Yes, on mfx1330d
Emulation	GDI (PCL optional)
Interface	USB 2.0
Network Printer Option	10/100 Base T Ethernet
Operating Systems	Windows 95, 98, NT4, 2000, ME and XP

Scanner Features:

Scanner Protocol	TWAIN
Scanner Resolution	200dpi - 600dpi
Colour Scanning	Yes
Scan Speed	2.9 seconds**
Network Scanner Option	Yes, NIC card†

Fax Features:

Modem Speed	33.6k bps
Data Compression	MH, MR, MMR, MSE, JBIG
Transmission Speed	2 seconds*
Memory	8MB (approx. 650 A4 pages)**
Optional Memory	Plus 32MB (total 40MB, approx. 3,370 A4 pages)**
Error Correction	Yes
Autodialer	200 numbers: 40 one touch, 160 speed dial & 32 groups
Internet fax	Yes, with NIC option
Macro Keys	7
Secure copy and fax	Yes
Memory Backup	Yes - max. 72 hours

Network Features[†]:

Mono network scanning, scan to email, scan to box, network printing & internet fax (with NIC card)

Consumables & Options:

High Yield Toner Set	Yield: 16,000 @ 6%
High Yield Drum Kit	Yield: 30,000 – 2 page cycle
Network Option [†]	Network interface card (NIC)
PCL Print Option	Yes
Additional Memory	32MB Memory Card
Paper Tray	500 Sheet Paper Cassette
Speech	Handset
Copy Desk	Option
2nd Telephone Line	Option
Mechanical Counter	Option

mfx1330 SERIES

Desktop Copier, Printer, Colour Scanner
& Fax with low total cost of ownership

mfX1330 SERIES

The perfect combination – low running costs, high performance, eco friendly and built to last

All of the functions, none of the compromise

- Print and copy at 13 pages per minute
- Colour scanning and mono PC printing
- 2 second faxing, Quick Memory Transmission, 650 page memory
- Duplex on mfx1330d and network print option

Flatbed copying and a first copy out time of just 12 seconds, an 80 page ADF, 25-400% reduction enlargement, upgradeable 650 page memory, 200 number short dial, security reception, department coding and broadcasting are just some of the functions included with the high performance mfx1330. Add to this triple access, PC printing, colour scanning, fast faxing and the mfx1330 becomes a 'must have' for any busy office or department.

Improve your bottom line for a long time to come

- Longer lasting toner and drums (16,000/30,000 pages respectively)
- Long service intervals
- Very low cost per copy (50% less than most competitors)
- 300,000 print design life

When you compare the purchase price of the mfx1330 with other market equivalents it is extremely competitive, when you compare the running costs, it's virtually impossible to beat. With separate easily changeable drum and toner, very low cost per copy and long service intervals, the mfx1330 really does reduce costs and improve your bottom line. But it's not just money you'll save – you'll save essential staff time, not just from the benefit of triple access, but by replacing toner and drums less often, organising service calls less often and most important of all, not needing to waste time and money buying a replacement machine for a long time to come – better for you, and better for the environment.

13ppm PC printing as standard

- 600dpi PC printing
- Colour TWAIN scanning
- Network printing option, with scan to email
- Double sided printing (mfx1330d)

13 pages per minute, 600dpi PC printing comes as standard - ideal for organisations, departments or individuals that require high quality output and fast print speeds. With colour and black and white TWAIN scanning you can take advantage of fast and easy transfer of photographs and images as well as the ability to back up and archive important files and documents. Other scan functions, such as scan to box, scan to email, internet fax and network scanning are available by adding the network option.

The mfx1330 will also perform as a network printer, just add the Network Interface Card (NIC), and you will benefit from black and white printing across your network via Windows 95, 98, NT4, 2000, ME or XP. On the mfx1330d, duplex printing allows you to print onto both sides of one sheet which means reduced cost and reduced waste.

13ppm digital copying

- Scan once, print many digital copying
- Digital sorting and collation
- 80 sheet ADF, 50 sheet bypass tray
- Double sided copying (mfx1330d)

As a digital copier, the mfx1330 delivers 13 crisp, clear copies per minute with a first copy out time of just 12 seconds. Its 'scan once, copy many' capability makes multi-copy tasks a lot quicker whilst simultaneously reducing the risk of paper jams and errors. With the duplex (mfx1330d) you can copy onto both sides of one sheet and halve the amount of paper you use.

The mfx1330 will copy up to 99 copies per job and comes complete with a 500 sheet (upgradeable to 1,000 sheets) paper cassette as standard. A 50 sheet bypass tray enables you to copy onto OHP film, letterheads or envelopes whilst electronic sorting lets you manage output more easily.

With a host of other features, including 25-400% reduction/enlargement, 256 level greyscale and light/dark contrast control, the mfx1330 provides serious copying capability.

Fast, efficient 2 second faxing

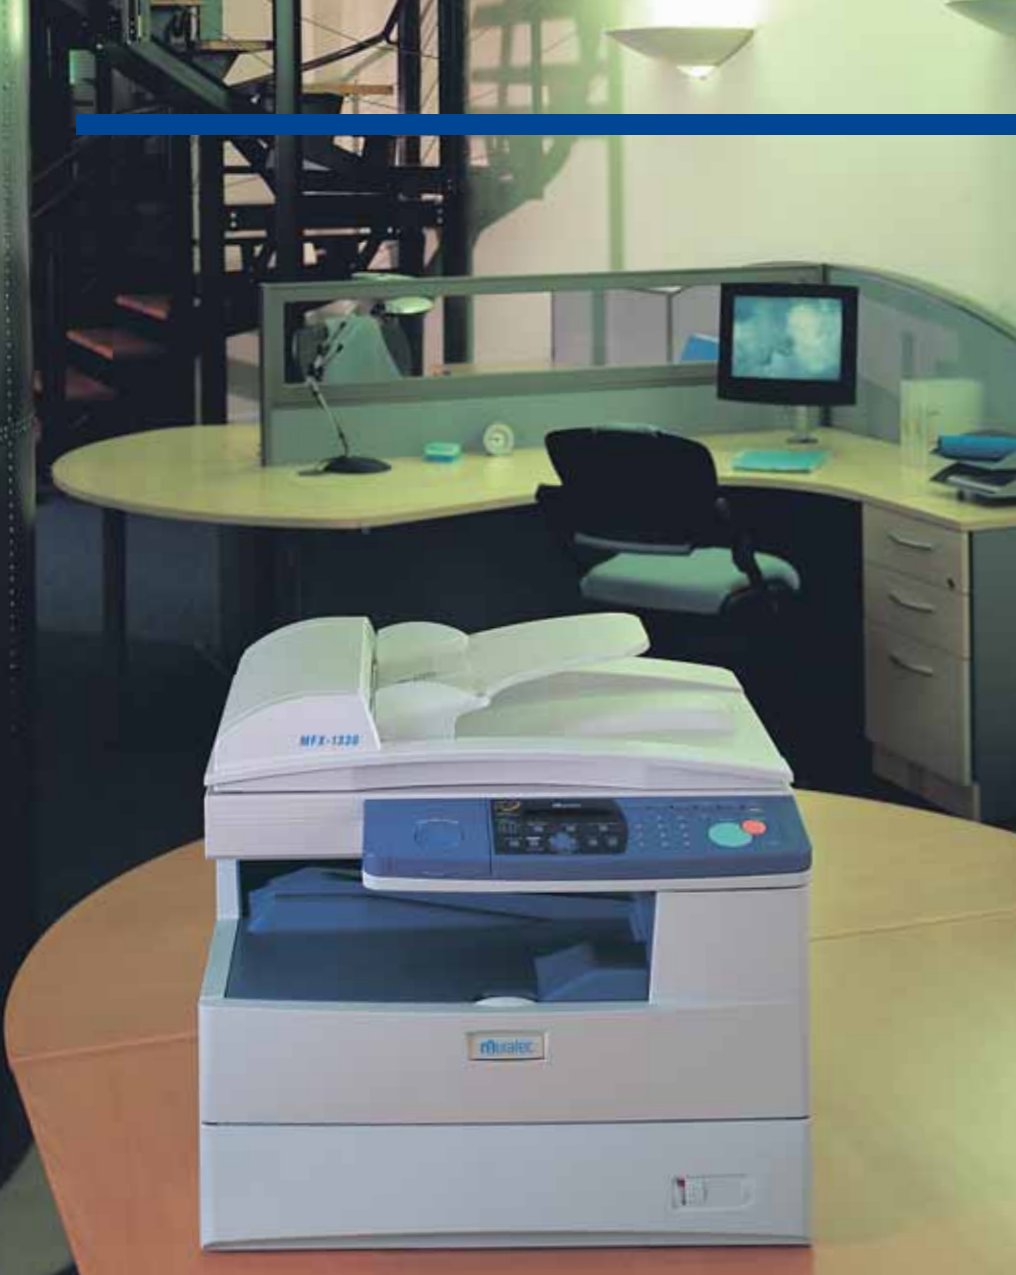

- Reduced call costs with Quick Memory Transmission
- Automatic fax and copy mode
- Triple Access – scan, print and fax simultaneously
- Duplex fax receive (mfx1330d)

Speed intelligence and flexibility come as standard with the mfx1330 series.

With fax transmission as little as 2 seconds, you save on call charges and time waiting at the machine. Use Quick Memory Transmission and save even more – this starts sending faxes as soon as scanning begins. The mfx1330d has a duplex fax receive capability, enabling you to print faxes received on both sides of the paper, saving you money. Copy and fax mode lets you make an automatic copy of every document faxed, as and when you need it.

The mfx1330 series has a standard memory of 8MB which stores up to 650 A4 faxed pages, this can be upgraded to 40MB (3,370 pages) if required. A wealth of time saving and management features come as standard with the mfx1330 series, these include 200 number autodialer, security reception, departmental coding and broadcasting. Internet fax is available by adding the network option. The dual line option is perfect for the busiest of departments, easily handling the heaviest incoming and outgoing fax traffic.

The mfx1330 series has passed the rigours of the toughest buyers. Its' compelling total cost of ownership and long term durability makes it the envy of our competitors. Outstanding performance, with PC printing and colour scanning as standard and optional duplex printing, the mfx1330 is the low cost, long term solution for busy offices and departments.
